### **Message From the CMRS Board Chairman**

### To the "First" First-Responders

First, I would like to express my sincere appreciation to all of the 9-1-1 Telecommunications Professionals working in our great Commonwealth. I would also like to express my personnel gratitude and ever increasing respect for my fellow board members and the talented and dedicated staff of the CMRS Board Office.

Your Commercial Mobile Radio Service (CMRS) Board has had a very active year.

#### **Next Generation 9-1-1**

Your CMRS Board is continually exploring new opportunities for the advancement of NG9-1-1 solutions that may offer dependable cost-effective NG9-1-1 service to our citizens. New ground work is currently under way to enhance the quality of the communications transmission infrastructure made available to our PSAPs and end users.

We continue to engage various vendors in the establishment of working models of interconnectivity utilizing the legacy networks operating within the Commonwealth. These working models cross not only legacy systems but also every type of geopolitical boundary, clearly demonstrated the technical abilities of those involved in the delivery of 9-1-1.

#### **Digital Mapping**

Mapping remains a "Hot Button" issue in 9-1-1 due to the total dependence of digital mapping in NG 9-1-1. The com-

mittee of subject-matter experts that the CMRS Board has assembled is prepared to report on the established guidelines and best practices to help us help PSAP's provide digital mapping that will complete a statewide map that is usable for 9-1-1.

#### **PSAP Grants**

Once again this year the CMRS Board offered a round of PSAP grants. A portion of these grants were aimed primarily at providing resources to agencies that are moving toward NG911. Other portions were used for dire circumstances and still others were dedicated to consolidation efforts undertaken by certified PSAPS.

The CMRS Board remains dedicated to the support and improvement of quality 9-1-1 services to the citizens of the Commonwealth of Kentucky.

Yours in Public Service,

### Dale W. Edmondson

Chairman, Kentucky CMRS Board

### **Message From the Executive Director**

Steven L. Beshear Governor

Joe Barrows
Executive Director

#### OFFICE OF THE GOVERNOR

#### KENTUCKY OFFICE OF HOMELAND SECURITY

Office of the 911 Coordinator/

**CMRS Board** 

On behalf of the members and staff of the CMRS Board, I am pleased to present the FY2014 Annual Report of the CMRS Board of Kentucky.

For the Board, FY2014 meant a continuation of the efforts to address the two outstanding issues facing the delivery of 911 services in Kentucky, to wit: funding and modernization of the system.

Funding of 911 services remains a critical issue in two ways. First, local governments are stretched thin in maintaining the existing level of service because, for the last five years, local revenues from landline fees have decreased every year and state contributions from the CMRS fund have not increased during that time.

The second funding issue is tied directly to the modernization of 911 that will have to take place not only in our state but across the country if we hope to cope with modern communication technologies. Kentucky cannot replace its antiquated analog voice-only 911 system with a Next Generation 911 digital network with the capacity to handle voice, text, video data, and much more without additional resources – plain and simple.

The aspect of 911 modernization that will eventually provide the public and policymaker support for the transition to NG911 is "Text to 911." The FCC has been and will continue to push service providers and states to provide the capacity for citizens to be able to text to PSAPs in emergencies. The "best" way to text is across

IP networks currently being used by almost everyone with a wireless device—but it won't work if you need to use text to "call" your 911 center.

On the funding side, efforts by the Board to collect and evaluate information on revenues and expenditures for 911 have improved each year since SB119 was adopted in 2011. That information clearly reveals that the "wireless" world is not bearing its fair share of the costs to provide 911 service. The total fees contributed by cell phones pay less than 25% of the costs while making 75% of the 911 calls.

Moreover, prepaid phones do not support the system at the wireless fee rate of  $70\phi$  per phone per month. Those cell phones using prepaid minutes contribute on average less than  $35\phi$  per month.

Eliminating the contribution disparity between "prepaid" and "postpaid" cell phones and raising the state wireless fee would solve both the immediate funding issues and provide the resources to give Kentuckians the modernized Next Generation 911 system they deserve and will come to expect.

Sincerely,

Joe Barrows

**Executive Director** 

Kentucky Office of the 911 Coordinator/CMRS Board

#### **CMRS BOARD MEMBERS**

Joe Barrows

Charles Willis

Mjr. John Bradley

Forest Skaggs

Shelby Horn

Dan Kemp

Steve Tracy

Mike Phillips

Vacancy\*

**Dale Edmondson** is the 911 Director for Campbell County Consolidated Dispatch. He serves as a representative of Directors of a certified public safety answering point operated by a local government entity or a consolidated group of local government entities. His term will expire on August 15, 2015

**Joe Barrows** is the Administrator of the Kentucky CMRS Board and the State 911 Coordinator. He serves by virtue of the position.

**Charles Willis** is the Vice President of Telecom Services with Bluegrass Cellular. He serves as a representative of Tier III CMRS Providers. His term will expire on August 15, 2015.

**Major John Bradley** serves as the Kentucky State Police Commissioner's Designee. He serves by virtue of the position.

**Forest Skaggs** is the Executive Director of the Kentucky Telecom Association and serves as a representative of local exchange landline telephone companies. His term expires on August 15, 2018.

**Shelby Horn** is the 911 Director for Jessamine County E911. She serves as a representative of the Kentucky Emergency Number Association and

the Association of Public Safety Communication Officials. Shelby's term will expire on August 15, 2017.

**Steve Tracy** is the E911 Coordinator for the City of Versailles. He serves as a representative of the Kentucky Emergency Number Association and the Association of Public Safety Communications Officials. His term expires August 15, 2015

Mike Phillips is the Director of Emergency Services for Bullitt County. He serves as a representative of the Kentucky Firefighters Association, the State Association of Chiefs of Police, and the Kentucky Ambulance Providers Association. His term expires August 15, 2015.

**Dan Kemp** is the mayor of Hopkinsville, serving to represent mayors of a city of the first or second class or urban-county government. His term expires August 15, 2016.

\*Vacancy for a representative of all CMRS providers. At the time of publication, **Jerome McNear** of AT&T had been appointed to fill the vacancy. His term will expire August 15, 2018.

#### **CMRS BOARD STAFF**

Joe Barrows
Executive Director

<u>Tandy Hubbard</u> Deputy Administrator

Krista Harrod Policy Advisor

Zachary Myers
Administrative Specialist

**Joe Barrows** was appointed by Governor Beshear as the State 911 Coordinator and hired by the CMRS Board as its Executive Director in July 2009, but his familiarity with CMRS goes back more than 10 years. Joe, an attorney from Versailles, served 27 years in the General Assembly as the State Representative from Woodford County. He served 10 years as the majority Whip. In 1998 he sponsored HB 673 which created the CMRS Board and HB 656 which updated the original legislation and created the CMRS Grant Fund. KENA/APCO recognized Joe for a career of legislative contributions to the 911 community.

**Tandy Hubbard** joined the Office of the 911 Coordinator/CMRS Board in May 2005 after serving as an intern during the summer of 2004. Tandy Graduated Magna Cum Laude from the University of Kentucky in August 2005 with a Bachelor of Arts Degree in Integrated Strategic Communications with an emphasis in Geography. Tandy manages the CMRS grant program and handles the financial and office management responsibilities of the Board, serves as a liaison between the PSAPs and the Board and is also involved in the Next Generation 911 Projects the Board has embarked upon.

**Krista Harrod** joined the team in June 2010 as a summer intern and is now a Policy Advisor full-time with the CMRS Board. Krista has a Bachelor's Degree in Accounting as well as an Associates Degree in Culinary Arts. Krista assists with the financial responsibilities of the Board, is in charge of Carrier and EFT payments remitted to the Board and is a grant manager for the CMRS Board's PSAP Grant program.

**Zachary Myers** came onboard in February 2014 as an interim Administrative Specialist. Zachary has a Bachelor of Science Degree in Political Science from Campbellsville University and is currently pursuing a Master in Public Administration from the Martin School of Public Policy and Administration at the University of Kentucky.

### Fiscal Year 2014 Highlights

#### **June 2013**

– CMRS Board approves grants totaling over \$4.25 million to some 57 recipients with the emphasis on projects reflecting the State 911 Plan and interim steps toward NG911 capacity.

#### **August 2013**

– Board member Brad Johnson, representing CMRS providers, resigns from Board after taking a new position with a company that is not a wireless service provider.

#### October 2013

First meeting of the special GIS Working Group commissioned by the Board and facilitated by RCC consultants to review and report on Kentucky's current 911 GIS map-

ping and addressing standards and how the process to acquire, maintain, and utilize the data will change to accommodate Next Generation 911's greater dependence on GIS.

#### November 2013

 Oral arguments in the Virgin Mobile case are heard by the Kentucky Supreme Court at a special session of the Court held at Northern Kentucky University.

#### **December 2013**

- TracFone case is finalized. Board receives check of \$4.8 million. Individual PSAP shares of the proceeds in the amount of \$2.9 million are distributed right before Christmas.

### February 2014

 Staff promotions for Tandy Hubbard to Deputy Administrator and Krista Harrod to Policy Advisor are approved. Zachary Myers is added as an interim employee.

#### **April 2014**

– Legislature adjourns. HB391, which addresses 911 funding, is not enacted but more attention is focused on the issue.

### **May 2014**

– Board receives 60 applications requesting approximately \$9 million for the 2014 grant cycle.

Senate Bill 119 was passed during the 2011 Regular Session of the Kentucky General Assembly. It directs the CMRS Board to gather and report data and information regarding 911 funding and costs in Kentucky by August 1, 2011 and annually thereafter. Senate Bill 119 is now KRS 65.7630.

KRS 65.7630 allows the Board to determine the information it needs to evaluate 911 funding and costs. The Board put a plan in place to acquire more information from local governments, state governmental agencies, and wireless and wireline service providers. This report contains the third analysis of the information the Board has acquired in response to KRS 65.7630 requirements.

Information gathered pursuant to this statute provides basis for an historical analysis of 911 funding with an eye on funding options for the future.

#### Revenues

Funding for 911 comes from three primary sources: locally enacted 911 fees most commonly collected on bills for 'landline' phone service; the state imposed 911 fee on cell phone service (CMRS fund); and other local general funds appropriated by cities and counties.

Some local governments aware of the demise of landline phones and the effect on 911 resources, have boldly enacted local ordinances that repeal their landline 911 fee and collect locally generated funds dedicated to 911 in a different fashion. Garrard County is collecting a 911 fee on its monthly municipal water bill; Kenton County assesses an annual \$85 per parcel fee on its property tax bill and Campbell County collects an annual 911 fee of \$45 per residential unit on its property tax bill. Each of these new initiatives is under court review.

The one page PSAP Revenue/Expenditure Report that follows is the best effort to date to provide a statewide "financial statement" on 911 services.

The information was acquired using a single, consistent reporting form for FY2014. All PSAPs\* returned the form. Most were complete in detail, though there are still reporting inconsistencies and, no doubt, inaccuracies.

Some broad generalizations about 911 funding can be summarized including:

- Of the three primary funding sources the contributors, in order of largest to least, continue to be local government general funds (\$33 million), local government 911 funds (\$28 million), and state 911 wireless fees (\$16.5 million)
- Expenditures exceed revenues by some \$7 million the difference is "covered" by fund balances carried forward from the previous fiscal year.
- While the "beginning fund balance" of \$29 million appears large, it is primarily generated from the PSAPs serving larger metropolitan jurisdictions with larger budgets where "carry forward" amounts would be more typical of budgeting practices and operational necessity. For example, just 14 PSAPs account for \$23.3 million of the \$29 million balance carry forward. The budget of six PSAPs, Boone, Bowling Green, Hopkinsville, Kenton, Lexington-Fayette, and Louisville Metro account for \$19.14 million of the statewide carry forward. On the other end of the spectrum, sixty (60) PSAPs, almost two-thirds (2/3) of our local government 911 centers, had beginning balances of less than \$50,000. Of that total, thirty-one (31) PSAPs reported a beginning balance of "0"!

What's missing is detailed information from KSP and their posts which would show what additional costs there are to providing 911 service in the state and what amount of state funds (non-CMRS funds) support there is for those expenses. We also do not know how much a local government which operates a secondary PSAP (one that may answer wireline calls only or dispatch responders from 911) are expending in support of 911.

Funding Sources for Certified PSAPs Operated by Local Government		
Source	Amount	% of Total
Local Dedicated Fees (Landline Primarily)	\$28,125,000	34%
Local General Funds	\$32,300,000	39%
CMRS Funds (Including Grants)	\$17,325,000	21%
Other	\$5,835,000	6%
Total	\$83,585,000	100%

### Prepaid "Issue" - Shortchanging the System

The state 911 fee is 70¢ per month per cell phone (CMRS connection). Providers collect the 70¢ each month on the bill they send to their customers (subscribers) and remit those funds to the Board. However, subscribers of "prepaid" cell phone service (phone cards) are not billed by the provider and so the 911 fee is collected as provided in KRS 65.7635(I)(a)(b)(c).

That statute provides three option by which "prepaid" providers may calculate or collect the 911 fee due. "Option A," which allows a provider to "decrement" (take away) 70¢ worth of minutes from a subscriber's account is used by one provider. "Option B" requires the provider to calculate and remit the 911 fee based on a revenue formula (i.e. monthly prepaid revenue divided by \$50 multiplied by 70¢ equals remittance due). Twelve providers report that they use this option.

The third statutory option is to utilize a method devised by the Board and put into regulation. The Board is not obligated to devise any other method and never has, so this option is "not available."

Interestingly, a de facto fourth option exists. At least six providers of prepaid service simply remit an amount calculated each month by multiplying its subscriber count by the  $70\phi$  fee. These tend to be smaller companies and account for less than 5% of the revenue from prepaid.

<u>The Rule</u>: Each cell phone in the state regardless of whether it is "loaded" with prepaid, postpaid, or free minutes should contribute to the support of 911 by paying the state 911 fee into the CMRS fund AND each should pay the same amount.

#### **Prepaid "Issue" – Shortchanging the System (Cont.)**

The Issue: The Option B revenue formula which is used by the major providers of prepaid service does not generate anywhere near the same amount of revenue that would be generated if the 70¢ fee were collected on each active prepaid phone each month. In fact, prepaid phones contribute on average less than 35¢ per month.

The Reason: The revenue formula contained in the statute is at fault. That formula uses a fifty dollar (\$50) ARPU (average revenue per user) as a part of the calculation to arrive at a rough estimate of how many prepaid subscribers there are before applying the  $70\phi$  fee. In reality the ARPU for users of prepaid service is much lower, around twenty dollars (\$20) a month. As a result, the estimate of prepaid subscribers is grossly underestimated and the resulting calculation grossly undercollects the 911 fee from prepaids.

<u>The Result</u>: The Option B formula shortchanges the CMRS fund (and has since its adoption in 2006) several million dollars each year. The CMRS Board receives roughly 40% of what should be collected from prepaid phones. The charts below show two quick calculations which demonstrate the undercollection based on FY 2014 data.

Chart I: 911 Funding—Prepaid Disparity—Simple Equation	
Total subscriber count (June 2014)	3,500,406
Times 70¢ per subscriber =	<u>x 70¢</u>
Monthly Revenues	\$2,450,284
Times 12 months (annualized)	<u>x 12</u>
Estimated Revenue for FY 2014 based	\$29,403,410
on all subscribers paying 70¢	
Actual Revenue Collected for FY 2014	<u>- (\$25,306,382)</u>
Difference attributable to prepaid disparity	\$4,097,028

Chart II: 911 Funding - Prepaid Disparity - "Option B"	
KRS 65.7635(1)(b) - "Option B" formula: Total KY prepaid revenue divided by \$50 multiplie paid fee remittance	d by 70¢ = pre-
Compare "Option B" to 70¢ per month	
Total Subscribers (June 2014)	3,500,406
Prepaid Subscribers (23%)	805,093
Prepaid Revenue (\$20 ARPU)	\$16,101,860
Apply "Option B" Formula (Divide by 50 x 70¢) = Monthly 911 Due Fees from Providers	\$225,426
Annual Prepaid Remittance (12 months)	\$2,705,112
Annual Remittance (70¢ x monthly subscriber count x 12 months)	\$6,762,781
Annual Remittance "Option B" formula	<u>- \$2,705,112</u>
Disparity - Annual "Lost Revenue"	\$4,057,669

#### Prepaid "Issue" - Shortchanging the System (Cont.)

<u>The Question</u>: Is there a simple option available that would correct the disparity in support between prepaid and postpaid phones?

<u>The Answer</u>: The disparity can be easily eliminated by amending the existing "options" statute by simply eliminating Option A and by changing the "\$50" to "\$20" in Option B as was proposed in HB 391 in the 2014 regular session of the General Assembly.

#### **Expenditures**

The expenditures reflect the roll up from the reporting document and may be the most accurate information to date on the costs of 911 service. However, it does not include state expenditures by the sixteen KSP posts which will significantly alter the total expenditures. Also, because 911 services are imbedded in other functions of local government, many costs would not be split out and reported (e.g. facility costs). The two largest expenditures predictably are in personnel and in the specialized 911 equipment-related costs.

### Total PSAP Expenditures by Category

Total*	\$88,926,182
Professional Service	<u>\$1,256,719</u>
911 Equipment/Software	\$15,416,902
Training and Membership	\$360,580
Facility Costs	\$8,326,890
Personnel Costs	\$63,565,091

<sup>\*</sup>excluding KSP

### **CMRS Grant Report**

**Grant Committee Chairman:** Major John Bradley

<u>Committee Members:</u> Shelby Horn, Don Kiely, Steve Tracy, Kevin Woosley, Dale Edmondson **Staff:** Tandy Hubbard and Krista Harrod

Fiscal Year 2014 brought the roll-out and implementation of the 2013 CMRS Grant Awards that had been approved for funding by the CMRS Board on June 28<sup>th</sup>, 2013. Awarded projects were divided into the following categories, each bringing their own set of exciting improvements and challenges. The intent of all 2013 CMRS Grant awards was to ensure the viability of the Commonwealth's PSAPs while making sure nothing was done counterproductive to Next Generation 911 efforts of the CMRS Board.

<u>Category #1:</u> This category encompasses applicants that asked for 911 controllers in their grant application:

- Each PSAP received an award equal to the total number of existing call taking seats they are operating today multiplied by \$35,000.
- PSAPs that received the grant award were given the option to choose between several Board approved Host/Remote controller solutions. The Board approved solutions each included geo-diverse and redundant dual Hosts and remote PSAPs were required to be connected to both Hosts.
- This solution promotes more reliable disaster recovery capabilities in the PSAP and has the potential to lower the PSAP's recurring equipment cost since the main pieces of technology used will be housed remotely, maintained by the Host provider and shared.

<u>Category #2:</u> This award category included grant requests, other than mapping projects, that cover a wide array of projects located within the PSAP such as renovation, CAD upgrades or replacements, logging recorder purchases, etc.

<u>Category #3:</u> This award category of grant requests included mapping and addressing projects. While the Board identified these applicants as showing sufficient need and project plans, the Board voted to initiate a "CMRS GIS Working Group" to evaluate the Board's current mapping and addressing standards and to further address the readiness of the existing standards to accommodate Next Generation 911. This working group was established and began meeting diligently in the fall of 2013. The sum-

mer months of 2014 saw the wrap-up of a draft report with recommended GIS standards for NG911 to be implemented by the Commonwealth. The draft report is currently being vetted with an anticipated Board approval date of December 2014. Once NG911 mapping and addressing standards for the Commonwealth have been finalized, the CMRS GIS Working Group will work with Category 3 grantees to ensure their projects are in line with any NG911 standard recommendations.

2014 CMRS Grant applications were due May 30<sup>th</sup>, 2014 but a decision regarding awards was not made in FY14. 60 applications were received with requests totaling \$9 million

### **CMRS PSAP Report**

**PSAP Committee Chairman:** Steve Tracy

<u>Committee Members:</u> Forest Skaggs, Dale Edmondson, Shelby Horn, Malissa Carter and Dustin Abbott

Staff: Tandy Hubbard and Krista Harrod

Currently, a total of 114 separate PSAPs maintain certification with the CMRS Board of which 16 are Kentucky State Police Posts. This total number includes 4 consolidated PSAPs that were once 8 separately certified PSAPs. While the position of the CMRS Board and PSAP Committee is not to force PSAP consolidation, KRS 65.7631(2)(a)(4) encourages consolidation by offering a non-competitive \$100,000 per PSAP reimbursement incentive to be used for expenses directly related to the consolidation efforts.

For Fiscal Year 2014, quarterly PSAP Pro Rata payments totaled \$10,361,779 and quarterly PSAP Volume payments were \$10,405,789. These disbursements included settlement monies disbursed in December 2013 and received by the Board from litigation involving a prepaid wireless provider and its failure to properly remit the wireless E911 fee for their wireless subscribers in Kentucky.

The PSAP Volume payment is based on the total wireless subscribers reported in a PSAP's jurisdiction and is distributed on the 1<sup>st</sup> of the payment quarter month.

The PSAP Pro Rata payment is distributed on the 15th of the payment quarter month and is an equal payment distribution each certified PSAP receives determined by dividing the number of wireless PSAPs eligible for payment into the revenue accumulated in the Pro Rata account during the quarter. Kentucky State Police Posts no longer taking wireless calls for any counties in the Post's region receive their Pro Rata share from the CMRS Grant Fund.

PSAP payment months are February, May, August and November and payments are calculated based on remittances received in the most recently closed calendar quarter.

The PSAP Committee continues to oversee the Board's PSAP Geo Audits and Re-Audits performed by Stantec. Of the 40+ PSAPs that have been re-audited, there has only been one failure.

The PSAP Committee is also working in coordination with the Grant Committee to ensure technology deployed at the PSAP —whether it be through the Board's grant program or paid for by the PSAP in efforts to obtain or maintain CMRS Certification —is compatible with the CMRS Board's NG911 plans.

### **CMRS Cost Recovery Report**

Cost Recovery Committee Chairman: Mike Phillips

Committee Members: Dan Kemp, Brad Johnson, Mitch Mitchell and Paul Nave Staff: Tandy Hubbard

The CMRS Board's Cost Recovery Committee is charged with reviewing plans submitted by wireless Carriers doing business in the Commonwealth for the build out and compliance with the FCC order outlining wireless E911 service requirements. Carriers are eligible for reimbursement by the CMRS Board for both non-recurring and recurring expenses for "designing, upgrading, purchasing, leasing, programming, testing, installing and maintaining all necessary data, hardware and software required in order to provide wireless E911 service" in accordance with KRS 65.7631.

\$3,345,490 in approved cost recovery reimbursements were distributed amongst 6 wireless providers in Fiscal Year 2014 through the Board's Cost Recovery Program: AT&T Wireless, Bluegrass Cellular, Cricket Communications, East Kentucky Network, Ntelos, and Sprint.

A total of \$78,848,644 in approved cost recovery reimbursements have been distributed since the first cost recovery payment was released in 2002.

As of March 2014, the CMRS Board was able to eliminate the balance of all invoices received and approved on or before June 30<sup>th</sup>, 2011 which totaled \$13,102,126 at the time the Board made a decision to not approve anymore invoices for payment until the existing balance owed was paid. At the June 4<sup>th</sup>, 2014 CMRS Board meeting, the CMRS Board voted to approve and pay invoices for expenses incurred prior to June 30<sup>th</sup>, 2011, but were received by the CMRS Board after that date. These invoices were paid in full in September 2014. See appendix for FY2015 payment amount.

The future of the Board's Cost Recovery program currently resides in the hands of the Cost Recovery Committee who will be working in the upcoming year to identify weaknesses in the program as it is currently operating today and comparing it to the needs of a Next Generation 911 deployment.

### **CMRS NG911 Initiative Report**

The Board has a statutory mandate to "coordinate...the implementation of advancements and new technology "in emergency telecommunications in the state" (KRS 65.7625). The Board used this authority to adopt a State 911 Plan calling for the modernization of the state's 911 system by deploying NG911 capacity - replacing outdated analog, voice-only technology with digital, IP-based network delivery of 911 calls.

Since the rejection of the Board's NG911 Network RFP in late 2012, the Board's efforts to provide NG911 have focused on building awareness of the need for such modernization among the public and state and local policymakers.

That awareness campaign has included presentations to KACO's Annual Conference; County Judges, Magistrates and Commissioners Conference; Kentucky League of Cities Legislative Day; the annual Governor's Local Issues Conference and legislative committee meetings.

Efforts to encourage the Governor to specifically endorse an NG911 ESI network for the state were "trumped" during the 2014 session of the General Assembly by the Governor's proposal to have the state acquire a Next Generation Kentucky Information Highway (NG-KIH) using a fiber network. Kentucky's NG911 network could easily be a "customer" or user of that network but it makes timing on coordination between the two an issue.

In the meantime, the Board has continued to prepare for the transition to NG911. Specifically, the Board appointed a GIS Working Group facilitated by RCC consultants and charged with evaluating the quality of the state's current GIS mapping and addressing process with an eye toward new data standards that NG911 will require. The Group will present a report to the Board with recommendations on what new standards to adopt and what processes to put in place to make the acquisition, maintenance and utilization of GIS generated state 911 mapping, so necessary for NG911, a practical reality.

The CMRS Board's efforts in moving to NG911 are affected by what goes on in other states – both neighboring states of Indiana and Tennessee have deployed statewide NG911 networks and are moving to "total" NG911 status.

From the Federal level comes additional pressure from the FCC to acquire NG911 capacity. Just as the FCC was instrumental in pushing states to make 911 "work" with cell phones, it is now "ordering" states and providers of wireless services to make "Text to 911" available to meet public expectations for the use of modern communication practices. Providing IP-based NG911 delivery of text using digital technology is the best method to accommodate this order.

### **CMRS Audit Report**

**Audit Committee Chairman:** Chuck Willis

Committee Members: Joe Barrows and Tandy Hubbard

**Staff:** Krista Harrod

KRS 65.7629 directs the CMRS Board to retain an independent certified public accountant to audit the books of the Board, CMRS providers and PSAPs to verify the accuracy of collection and disbursement of the CMRS service charge.

The Board Audit Committee works with the Auditor to establish the methodologies and selection criteria to be used by the Auditor in conducting the audits of selected PSAPs and Providers.

Upon receipt of audit reports, the Audit Committee reviews the findings for the purpose of recommending Board action to address any compliance issues.

The Board has a Personal Service Contract with the firm of Ross and Company to provide audit services. In Fiscal Year 2014, the Board spent \$48,621 on this contract. This Fiscal Year, three audits are being performed for the period of FY2012 through FY2013 on PSAPs and Carriers and the books of the CMRS Board. The information gathering efforts for this audit cycle were enhanced due to the Board's authority under Senate Bill 119.

### **CMRS AND 911 By The Numbers**

### **Public Safety Answering Points (PSAP) Data**

•114	# of primary PSAPs certified by the CMRS Board; includes 16 Kentucky State Police Posts	
•49	# of secondary non-certified PSAPs, (e.g. universities, local dispatch only PSAPs, airports )	
•24	# of counties served by the Kentucky State Police for wireless 911 call taking as of June 30th, 2014	
• 536	# of total call-taking positions statewide	
• 1,482	# of persons employed as call-takers statewide	
• 1,306	# of call-takers trained and certified by Dept. of	
,	Criminal Justice Training	
•3,349,617	# total of 911 calls in Kentucky FY2014	
• 2,422,702	# of 911 calls from wireless devices (cell phones)—73%	
• 924,329	# of 911 calls from landline devices—27%	
• 71	# of PSAPs providing EMD (Emergency Medical Dispatching)	
• 116	# of Kentucky counties with Enhanced 911	
	(98.9% of population)	
• 4	# of Kentucky counties that are limited to Basic 911	
120	(1.1% of population)	
• 120	# of counties with wireless 911 service	
0	(100% of population)	
•0	# of PSAPs taking "Text to 911" calls	
• 23	# of PSAPs "ready" for Next Generation 911	
MONEY IN (WIRELESS)		
<ul><li>47</li><li>\$24,483,981</li></ul>	# of Wireless Providers remitting 911 fees to the Board Total CMRS Board receipts in FY 2009	
• \$25,150,290	Total CMRS Board receipts in FY 2013	
• \$25,306,382	Total CMRS Board receipts in FY 2014	
• \$23,333,734	Total of postpaid receipts	
• \$2,459,113	Total of prepaid receipts	

### CMRS AND 911 By The Numbers (continued)

### **MONEY IN (WIRELINE)**

• 108	# of counties with local wireline 911 fees	
• 6	# of counties with "different" local 911 fee	
• 6	# of counties with no local 911 fee.	
• \$.32-\$4.00	Local wireline fee range in Kentucky	
• \$28,127,385	Total revenue statewide from local 911 fees	
	MONEY OUT	
• \$14,981	Value of a PSAP Pro Rata payment in May 2006	
• \$18,356.39	Value of a PSAP Pro Rata payment in May 2013	
• \$18,819.36	Value of a PSAP Pro Rata payment in May 2014	
• \$9,123,308	Total PSAP Volume payments in FY2013	
• \$9,517,503	Total PSAP Pro Rata payments in FY 2013.	
• \$10,405,289	Total PSAP Volume payments in FY 2014	
• \$10,361,779	Total PSAP Pro Rata payments in FY 2014	
• \$180,343,179	Total paid to certified PSAPs since the inception of the	
	CMRS PSAP payment program through FY 2014	
• \$78,848,644	Total Cost Recovery Fund distributed to wireless carriers since	
	the inception of the Cost Recovery program in 2002	
• 84	# of counties receiving CMRS Grant	
• 5	# of CMRS Consolidation Grant awards	
• \$4,259,803	Value of grant awards FY2014	

### **CMRS AND 911 By The Numbers** (continued)

#### WIRELESS DATA

Total wireless subscribers in KY June 2006

• 3,321,309	Total wireless subscribers in KY June 2013	
• 3,500,406	Total wireless subscribers in KY June 2014*	
• 2,643,043	Total postpaid subscribers as of June 2014	
• 857,363	Total prepaid subscribers as of June 2014	
• 231,303	Total Lifeline subscribers as of June 2014	
• 336 million Estimated total of wireless subscribers nationally		
• 24	% of wireless subscribers that are prepaid	
• 40	% of households now wireless only	
• 55	% of wireless subscribers with "smart" phones	

<sup>\*</sup>as reported by providers of wireless service

• 2,539,195

#### Lifeline Program

231,303	# of wireless Lifeline participants in Kentucky – June 2014
25	# of wireless providers (ETC's) eligible to participate in
	Lifeline in Kentucky
16	# of wireless providers granted ETC status in the last four years
\$25,136,255	Amount of federal Lifeline reimbursements to ETC companies
	in Kentucky—FY 2014
\$8,316,287	Amount of state Lifeline reimbursements to ETC
	companies in Kentucky—FY 2014
\$33,452,542	Total Lifeline reimbursements to ETC providers
	25 16 \$25,136,255 \$8,316,287

The Lifeline program is a federal low income program. Providers of wireless phone service wishing to participate must get permission from the Kentucky Public Service Commission. Once granted "Eligible Telecommunications Carrier" (ETC) status, companies then "give away" a cell phone to an eligible person along with "free minutes" each month. The federal government reimburses the ETC company each month at \$9.25 for each of their Lifeline subscribers. ETC companies are also eligible for reimbursements by the state each month at the rate of \$3.50 per Lifeline subscriber.

The CMRS Board considers those federal and state reimbursements as "revenue" to the providers of prepaid service which must be included in the calculation of 911 fees due monthly to the Board so that Lifeline phones also help support the 911 system (though at the lower "prepaid" rate).

<sup>\*</sup>The reimbursement numbers represent payments to wireless prepaid providers who participate in the program described above—not wireline Lifeline participants or postpaid wireless Lifeline participants.

#### **Financial Report**

The CMRS Board collected nearly \$25.3 million in remittances from wireless Carriers doing business in the Commonwealth during Fiscal Year 2014, an increase of just over 1% of the previous year's revenues.

Wireless Carriers reported a total of 3,393,567 wireless subscribers with billing zip codes in Kentucky for the month of March 2014, in comparison, a total of 3,381,397 were reported for the same month in 2013-a increase of nearly 1%.

A variety of Personal Service Contracts were approved by the CMRS Board to carry out requirements of the Board outlined in both administrative regulations and statutes. These are:

- Goldberg and Simpson-\$102,225 was expended from the CMRS Administrative Account to support legal services provided by the law firm of Goldberg and Simpson for litigation against prepaid wireless providers not remitting the wireless E911 surcharge to the CMRS Board for their customers in the Commonwealth.
- ◆ <u>Stantec Consulting</u>-\$7,453 in CMRS Administrative dollars were used to re -audit CMRS certified PSAPs that did not pass their initial mandated CMRS Geo-Audit and were ready for re-audit in Fiscal Year 2014.
- RCC Consultants-\$93,047 was paid for services rendered in assisting the Board with the development of the RFPs needed to implement NG911 in Kentucky as described in the approved State 911 Plan and to advise the Board of it's efforts as it relates to NG911.
- Ross and Company-\$48,621 was expended to complete the next round of Financial Audits performed on Carriers, PSAPs and the books of the Board in accordance with KRS 65.7629(13).

### CMRS Board-FY 2014 Expenditures by Fund

Total	\$25,997,267
PSAP Volume	\$10,405,789
PSAP Pro Rata	\$10,360,779
CMRS Provider	\$3,345,490
CMRS Grant	\$1,370,772
CMRS Admin	\$514,437

### **Appendix B**

#### **CMRS Fund:**

### Collection/Disbursement of the KY CMRS 911 Service Charge

- Providers of wireless service collect the 911 service charge monthly and remit directly to the Board. The surcharge collected on postpaid devices is 70¢ per phone per month. The surcharge collected on prepaid devices averages less than 35¢ per phone per month.
- To reimburse itself for the cost of collecting and remitting the service charge, a provider may retain 1.5% of the total it collected
- All receipts are deposited into the CMRS Fund and apportioned by statute into specific accounts
- Fiscal year receipts for the CMRS fund totaled \$25,150,290. The chart shows how receipts are apportioned
